1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or make obvious a scalable imaging system adapted to detect defects on a surface of a substrate using time domain integration sensors comprising, in addition to the other recited features of the claim, an imaging platform having a plurality of sensor module ports to receive sensor modules, wherein a sensor module removably connected to one of the sensor module ports and adapted to optically sense swaths on the surface of the substrate, the sensor module including a time domain integration sensor, optics, an analog controller and a digital controller as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stanton et al (6,448,544) is cited for disclosing a low noise, high resolution image detection system.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Pyo whose telephone number is (571) 272-2445. The examiner can normally be reached on Mon-Fri (with flexible hour), First Mon. off.
